Presidents Message

As we head into June, I want to take a moment to look back at an incredibly productive spring and share some exciting updates about where our chapter is headed as we slide into the summer months.

Meet Your New 2026–2027 Board!

First, a huge thank you to everyone who participated in our recent nomination and election process. I am thrilled to welcome three fantastic individuals to the Philadelphia Board of Directors for the upcoming 2026–2027 term. Please join me in congratulating our new officers:

- Treasurer: Hari Patel
- Vice President Legislative: Jassen Mantz
- Vice President Technical: Heather Palladino

A strong, engaged board is what keeps our chapter moving forward, and I am incredibly grateful to Hari, Jassen, and Heather for stepping up to volunteer their time and expertise. Make sure to congratulate them when you see them next! We are finalizing our roster of chapter delegates to attend the ASPE National Convention in Oklahoma City this fall. This ensures our chapter keeps a strong, active voting voice in the future of our society.

I want to say a huge thank you to everyone who joined us for Manufacturer's Representative Appreciation Night. Thank you to Chris Erich for planning such a spectacular event at the Phillies game this past week! It was an incredible turnout and a great way to bring our chapter events closer to engineers across the region.

Laura President, ASPE Philadelphia Chapter

ASPE

Convention & Expo
OKLAHOMA CITY | 2026

MEMBERS!

The ASPE Convention & EXPO occurs every even year, and before the EXPO floor opens, delegates from ASPE Chapters across the country come together for a Business Meeting. During the meeting, delegates **vote on Bylaws updates and elect the incoming Board of Directors.**

This year, we would like to invite our engineering members to join us as a delegate of our chapter! If you are interested, please use the link below to complete a brief survey, and a member of our Board will reach out to you directly.

This is an incredible opportunity to get involved and directly make an impact in the future of ASPE, and we hope to see you in Oklahoma City in October!

Membership News

Hello all,

Wow, it is hard to believe it is already June. This chapter year has been a great one, with new meeting topics and locations. Thank you to Ballinger for hosting us for our May meeting. We had eight wonderful speakers discuss best practices on a job site, along with a lively discussion about codes and piping layouts.

Thank you to Lou, Lenny, Gene, Jeff, Tyler, Sedona, Olga, and Sean. We hope to have more presentations in a similar format from your team next year.

For the engineers reading this article, please let us know if your firm would like to host an ASPE meeting next year. Ideally, the meeting space will accommodate 40-60 people. If you are concerned about audience size, we can cap registrations to stay within your space's capacity.

Heather Palladino and I will be meeting this summer to discuss venues, topics, and presenters. This year's chapter meetings saw the highest attendance when fellow engineers served as speakers. We would love to replicate this experience for the 2026-2027 chapter year.

Please reach out with any feedback regarding this year's meeting venues. We are happy to make adjustments for next year and would love to provide what our members are looking for.

Have a wonderful summer!

Best,

Lauren

AYP/WOA News

It's been a fun year of presentations and events, and I'm looking forward to reconvening again after summer! When we come back from our break, there will be a fresh calendar of presentations, a few new faces on our Board, and of course, the highly anticipated ASPE Convention & EXPO. If you are an engineer who has never attended this event, I encourage you to review the convention website which has links for the Education Sessions, Manufacturers/Reps with Booths at the EXPO, information about the social events (including the WOA Leadership Summit and AYP Social Event), and so much more. Jacob and I are working on a fun Fall event for our AYP/WOA interest groups, and I'm looking forward to an exclusive WOA event, too. Stay tuned for details, and don't forget to register for our golf outing in September!

Nikita Patel
WOA Liaison

Legislative News

Hello all!

The Senate will reconvene on Monday, June 8, 2026, and the House will also reconvene on Monday, June 8, 2026.

I hope everyone had a great Memorial Day weekend and was able to take some time to relax and recharge.

At the moment, there is not a whole lot of new action in plumbing legislation in our area. However, one important progression to be aware of is the upcoming statewide enforcement of the 2021 I-Codes. This is following the required six-month phase-in period, ending on June 30, 2026.

Effective July 1, 2026, all new plumbing permit applications statewide must comply with the 2021 Uniform Construction Code (UCC). This marks a key transition point, This is important for all of you plumbing engineers, designers to ensure that all new work aligns with the updated code requirements.

To help navigate these changes, I encourage everyone to take advantage of available resources such as the Pennsylvania Department of Labor & Industry and the City of Philadelphia Department of Licenses and Inspections. Both provide valuable guidance, updates, and tools to support compliance with the new codes.

If you have any specific questions or need help finding information, please feel free to reach out, I would be happy to assist.

As always, I welcome your questions or suggestions for future article topics.

Until then...

Be well and plumb on!

Elevate Your Plumbing Design Career Join the American Society of Plumbing Engineers (ASPE)

Plumbing Design Engineering Is More Than Code Compliance.

Modern plumbing design engineering includes specialized systems, sustainability practices, fire protection, medical and laboratory gas systems, and fully integrated approaches that enhance performance and durability.

- Specialized plumbing systems
- LEED and sustainable design practices
- Fire protection systems • Medical and laboratory gas systems
- Integrated system performance and durability

Why ASPE? ASPE is a professional nonprofit organization dedicated to enhancing and promoting the profession of plumbing design engineering while improving public health, welfare, and safety globally.

Professional Development Opportunities

- Biennial Convention and Tech Symposium
- Workshops and Webinars with Continuing Education Units (CEUs)
- Comprehensive technical handbooks included with membership
- Professional credentialing programs: CPD, CPDT, and GPD
- Networking with industry professionals and local chapters
- Influence on plumbing codes and standards.

Strengthen Your Team. Strengthen Your Company.

Encourage your employees to join American Society of Professional Engineers (ASPE) to enhance project quality, support business growth, increase professional credibility, and help ensure successful project outcomes for your clients.

Affiliates Corner

As we wrap up another successful ASPE Philadelphia chapter year, I want to extend a sincere thank you to all of our tabletop sponsors who participated throughout the 2025/2026 calendar year. Your support, engagement, and commitment to our chapter played a major role in the success of our technical meetings and events. The value you bring through your participation helps create meaningful opportunities for education, networking, and industry collaboration for all of our members.

We're already receiving interest in tabletop presentations for next year's meeting schedule. If your company would like to be considered for a future tabletop opportunity, please reach out to Kyle at kyle@richtomkins.com to be added to the waiting list. While the current year is fully booked, we'd be happy to start planning ahead for the upcoming season.

As we continue to grow and improve as a chapter, we also welcome feedback from our affiliate partners. Whether it's ideas for technical meetings, social events, sponsorship opportunities, or ways we can better serve our members and industry partners, we'd love to hear from you. Please don't hesitate to reach out with suggestions or comments.

Thank you again for another outstanding year. The success of our chapter would not be possible without the continued support of our affiliates. We greatly appreciate your partnership and look forward to working together in the year ahead.

Kyle Briggs - Affiliate Liaison
